

50 Home-Based Exercises

Dumbbells + Resistance Bands

A practical exercise library for home workout programming. Exercises are grouped by muscle group and include the required equipment plus a concise form cue.

Equipment	Pair of dumbbells + resistance band(s)
Exercise Count	50
Training Level	Beginner to advanced - adjust load, band tension, tempo, and range of motion
Use	Strength, muscle building, fat-loss circuits, conditioning, and general fitness

General note: Choose a load and band tension that allow controlled technique. Stop any exercise that causes sharp pain, unusual dizziness, or loss of control.

Chest

#	Exercise	Equipment	How to Perform
1	Dumbbell Floor Press	Dumbbells	Lie on the floor, elbows about 45 degrees from the torso, press dumbbells upward and lower under control.
2	Dumbbell Squeeze Press	Dumbbells	Press two dumbbells together over the chest while maintaining inward pressure throughout the movement.
3	Dumbbell Floor Fly	Dumbbells	With a slight elbow bend, open the arms until the upper arms lightly touch the floor, then squeeze back together.
4	Resistance Band Chest Press	Resistance Band	Anchor the band behind you, press handles forward, and return slowly while keeping the chest lifted.
5	Resistance Band Chest Fly	Resistance Band	Anchor behind you and sweep the arms forward in an arc, squeezing the chest at the finish.
6	Single-Arm Band Chest Press	Resistance Band	Press one arm forward at a time while resisting torso rotation.

Back

#	Exercise	Equipment	How to Perform
7	Bent-Over Dumbbell Row	Dumbbells	Hinge at the hips, keep the spine neutral, row dumbbells toward the hips, and lower slowly.
8	Single-Arm Dumbbell Row	Dumbbell	Support one hand on a stable surface and pull the dumbbell toward the hip without twisting.
9	Dumbbell Pullover	Dumbbell	Lie on the floor, hold one dumbbell above the chest, lower it behind the head, then pull back over.
10	Resistance Band Seated Row	Resistance Band	Loop the band around a secure point or feet, pull elbows back, squeeze shoulder blades, and return slowly.
11	Resistance Band Lat Pulldown	Resistance Band	Anchor overhead and pull elbows down toward the ribs while keeping the torso controlled.
12	Straight-Arm Band Pulldown	Resistance Band	Anchor overhead, keep arms nearly straight, and pull the band down toward the thighs.
13	Band Face Pull	Resistance Band	Anchor at face height, pull toward the forehead with elbows high, and squeeze the rear shoulders.

Shoulders

#	Exercise	Equipment	How to Perform
14	Dumbbell Shoulder Press	Dumbbells	Press dumbbells overhead from shoulder height without excessively arching the lower back.
15	Dumbbell Lateral Raise	Dumbbells	Raise arms out to the sides to about shoulder height with soft elbows and controlled tempo.
16	Dumbbell Front Raise	Dumbbells	Raise dumbbells in front to shoulder height without swinging.
17	Dumbbell Arnold Press	Dumbbells	Start palms facing you, rotate outward while pressing overhead, then reverse the motion.

#	Exercise	Equipment	How to Perform
18	Bent-Over Dumbbell Reverse Fly	Dumbbells	Hinge forward and open the arms wide, focusing on rear delts and upper back.
19	Band Lateral Raise	Resistance Band	Stand on the band and raise the arms to the sides while maintaining constant tension.
20	Band Overhead Press	Resistance Band	Stand on the band and press the handles overhead while bracing the core.

Biceps

#	Exercise	Equipment	How to Perform
21	Dumbbell Biceps Curl	Dumbbells	Curl the dumbbells without swinging the torso and lower through a full controlled range.
22	Hammer Curl	Dumbbells	Curl with palms facing each other and keep elbows close to the sides.
23	Alternating Dumbbell Curl	Dumbbells	Curl one arm at a time while keeping the non-working arm controlled.
24	Resistance Band Curl	Resistance Band	Stand on the band, curl the handles upward, and keep the elbows fixed.
25	Band Reverse Curl	Resistance Band	Use an overhand grip and curl upward to emphasize forearms and brachialis.

Triceps

#	Exercise	Equipment	How to Perform
26	Dumbbell Overhead Triceps Extension	Dumbbell	Hold one dumbbell overhead, bend the elbows to lower behind the head, then extend fully.
27	Dumbbell Skull Crusher on Floor	Dumbbells	Lie on the floor, bend only the elbows to lower dumbbells beside the head, then extend.
28	Dumbbell Triceps Kickback	Dumbbells	Hinge forward, keep upper arms fixed, and extend the elbows until the arms are straight.
29	Resistance Band Pushdown	Resistance Band	Anchor overhead and press the band down by extending the elbows while keeping upper arms still.
30	Band Overhead Triceps Extension	Resistance Band	Anchor low or stand on the band and extend the arms overhead without flaring the elbows excessively.

Legs

#	Exercise	Equipment	How to Perform
31	Goblet Squat	Dumbbell	Hold one dumbbell at the chest, sit down between the hips, and stand by driving through the feet.
