

Fit360OS - Post-Workout Stretching Guide

40 Body-Part-Wise Cool-Down Stretches

Use these stretches after training when the goal is to relax the muscles, restore comfortable range of motion, and cool down gradually. Static stretches should feel mild to moderate - never sharp or painful. Most can be held for 20-30 seconds and repeated 1-2 times.

Body Part	Stretches
Chest	3
Back & Lats	4
Shoulders	4
Upper Traps & Neck	2
Biceps	2
Triceps	2
Forearms & Wrists	2
Quadriceps	3
Hamstrings	3
Glutes	3
Hip Flexors & Adductors	4
Calves	2
Core & Abdominals	2
Full-Body Cool-Down	4
Total	40

Suggested post-workout use: spend 5-10 minutes cooling down. Select 4-8 stretches that match the muscles trained. Breathe slowly, avoid bouncing, and reduce the stretch if numbness, tingling, or joint pain occurs.

Chest

#	Stretch	Primary Target	Hold	Execution Cue
1	Doorway Chest Stretch	Pectoralis major/minor	20-30 sec/side	Place forearm on a doorway, step forward gently, and rotate the chest away until a mild stretch is felt.
2	Single-Arm Wall Chest Stretch	Chest / front shoulder	20-30 sec/side	Place one palm on a wall at shoulder height and slowly turn the body away without forcing the shoulder.
3	Hands-Clasped Chest Opener	Chest / anterior shoulders	20-30 sec	Clasp hands behind the body, straighten the arms gently, and lift slightly while keeping ribs controlled.

Back & Lats

#	Stretch	Primary Target	Hold	Execution Cue
4	Child's Pose	Lats / lower back	30-45 sec	Sit hips toward heels, reach arms forward, and breathe slowly into the back and rib cage.
5	Bench Lat Stretch	Lats / upper back	20-30 sec	Place elbows or hands on a bench and sink the chest downward while keeping the spine long.
6	Standing Lat Stretch	Lats / side body	20-30 sec/side	Reach one arm overhead, hold a support if needed, and gently lean away from the stretching side.
7	Kneeling Side Lat Stretch	Lats / teres major	20-30 sec/side	From kneeling, place one hand farther forward and slightly across the body, then sit hips back.

Shoulders

#	Stretch	Primary Target	Hold	Execution Cue
8	Cross-Body Shoulder Stretch	Rear deltoid	20-30 sec/side	Bring one arm across the chest and gently draw it closer with the opposite arm without shrugging.
9	Overhead Shoulder Flexion Stretch	Shoulders / lats	20-30 sec	Reach both arms overhead and slightly back while keeping the ribs down and neck relaxed.
10	Sleeper Stretch - Gentle	Posterior shoulder	15-20 sec/side	Lie on one side with the shoulder and elbow bent about 90 degrees, then gently guide the forearm downward.
11	Rear Shoulder Wall Stretch	Rear deltoid / upper back	20-30 sec/side	Place the back of one arm against a wall and rotate the torso gently away.

Upper Traps & Neck

#	Stretch	Primary Target	Hold	Execution Cue
12	Upper Trapezius Stretch	Upper trapezius / side neck	20-30 sec/side	Sit or stand tall, gently tilt one ear toward the same-side shoulder, and keep the opposite shoulder relaxed.
13	Levator Scapulae Stretch	Levator scapulae / upper back	20-30 sec/side	Turn the head about 45 degrees, look gently toward the armpit, and apply only light hand pressure if needed.

Biceps

#	Stretch	Primary Target	Hold	Execution Cue
14	Wall Biceps Stretch	Biceps / front shoulder	20-30 sec/side	Place the palm on a wall behind you with the arm straight, then slowly rotate the torso away.
15	Standing Biceps Opener	Biceps / chest	20-30 sec	Interlace fingers behind the back, straighten the elbows gently, and keep shoulders down.

Triceps

#	Stretch	Primary Target	Hold	Execution Cue
16	Overhead Triceps Stretch	Triceps / lats	20-30 sec/side	Bend one elbow overhead and gently guide it with the opposite hand while keeping the torso upright.
17	Wall Triceps-Lat Stretch	Triceps / lats	20-30 sec/side	Place one elbow on a wall above shoulder height and sink the chest slightly while keeping the ribs controlled.

Forearms & Wrists

#	Stretch	Primary Target	Hold	Execution Cue
18	Wrist Flexor Stretch	Forearm flexors	20-30 sec/side	Extend one arm with palm up and gently pull the fingers downward and back with the opposite hand.
19	Wrist Extensor Stretch	Forearm extensors	20-30 sec/side	Extend one arm with palm down and gently bend the wrist so fingers point toward the floor.

Quadriceps

#	Stretch	Primary Target	Hold	Execution Cue
20	Standing Quad Stretch	Quadriceps	20-30 sec/side	Hold one ankle behind you, keep knees close, and gently tuck the pelvis instead of arching the back.
21	Side-Lying Quad Stretch	Quadriceps	20-30 sec/side	Lie on one side, hold the top ankle, and draw the heel toward the glute while keeping hips stacked.
22	Couch Stretch	Quadriceps / hip flexors	20-30 sec/side	Place the rear shin against a wall or bench and keep the torso tall while gently squeezing the rear glute.

Hamstrings

#	Stretch	Primary Target	Hold	Execution Cue
23	Seated Single-Leg Hamstring Stretch	Hamstrings	20-30 sec/side	Extend one leg, hinge forward from the hips, and keep the spine long rather than rounding deeply.
24	Standing Hamstring Stretch	Hamstrings	20-30 sec/side	Place one heel on a low surface, keep the knee soft, and hinge forward until a mild stretch is felt.
25	Supine Hamstring Stretch	Hamstrings	20-30 sec/side	Lie on the back and gently raise one leg using a strap or hands behind the thigh without locking the knee.

Glutes

#	Stretch	Primary Target	Hold	Execution Cue
26	Figure-Four Stretch	Glute maximus / piriformis	20-30 sec/side	Cross one ankle over the opposite thigh and gently draw the legs toward the chest.
27	Seated Figure-Four Stretch	Glutes / piriformis	20-30 sec/side	Cross one ankle over the opposite knee and hinge forward with a long spine.
28	Pigeon Stretch - Modified	Glutes / external rotators	20-30 sec/side	Bring one shin forward and extend the other leg back; keep hips as square and supported as possible.

Hip Flexors & Adductors

#	Stretch	Primary Target	Hold	Execution Cue
29	Half-Kneeling Hip Flexor Stretch	Hip flexors	20-30 sec/side	From a half-kneeling stance, tuck the pelvis slightly and shift forward without arching the lower back.
30	Half-Kneeling Hip Flexor with Side Reach	Hip flexors / side body	20-30 sec/side	Hold the hip-flexor position and reach the same-side arm overhead, leaning gently away.
31	Butterfly Stretch	Adductors / inner thighs	20-30 sec	Bring the soles of the feet together and let the knees fall outward while keeping the spine tall.
32	Wide-Knee Adductor Rock-Back	Adductors	20-30 sec or 6-8 slow rocks	From hands and knees, widen the knees and gently sit the hips back while keeping the spine neutral.

Calves

#	Stretch	Primary Target	Hold	Execution Cue
33	Standing Wall Calf Stretch	Gastrocnemius	20-30 sec/side	Keep the back knee straight and heel down while leaning toward the wall.
34	Bent-Knee Calf Stretch	Soleus	20-30 sec/side	Keep the heel down and bend the back knee slightly while shifting forward.

Core & Abdominals

#	Stretch	Primary Target	Hold	Execution Cue
35	Sphinx Stretch	Abdominals / anterior trunk	20-30 sec	Lie face down and prop onto the forearms, lifting the chest gently without compressing the lower back.
36	Gentle Cobra Stretch	Abdominals / hip flexors	15-20 sec	Press up only to a comfortable height, keep shoulders down, and avoid forcing lumbar extension.

Full-Body Cool-Down

#	Stretch	Primary Target	Hold	Execution Cue
37	Standing Side Bend	Lats / obliques / side body	20-30 sec/side	Reach one arm overhead and lean gently to the opposite side while keeping the pelvis stable.
38	Supine Spinal Twist	Glutes / lower back / trunk	20-30 sec/side	Lie on the back, bring one knee across the body, and keep both shoulders relaxed toward the floor.
39	Knees-to-Chest Stretch	Lower back / glutes	20-30 sec	Lie on the back and draw both knees toward the chest while relaxing the shoulders and breathing slowly.
40	Full-Body Supine Reach	Whole body	20-30 sec	Lie on the back and reach arms overhead while lengthening the legs in the opposite direction without straining.

Important: Post-workout stretching is optional and should complement, not replace, appropriate recovery, hydration, sleep, and progressive training. People with injuries, recent surgery, neurological symptoms, or significant joint pain should use individualized guidance from an appropriate healthcare professional.
